University Policy on Cheating and Plagiarism

Plagiarism - As defined by Senate, "plagiarism is presenting, whether intentional or not, the ideas or work of others as one's own".

Unauthorized Co-operation or Collaboration- Senate policy states that "to ensure fairness and equity in assessment of term work, students shall not co-operate or collaborate in the completion of an academic assignment, in whole or in part, when the instructor has indicated that the assignment is to be completed on an individual basis". Please refer to the course outline statement or the instructor concerning this issue.

Student Academic Integrity Policy
The following are some examples of things you can or cannot do:
• You are not allowed to copy or edit any portion of another student's work such as code, diagram etc, nor from any websites, but you may use those from the course notes.
• You are not allowed to give your solution (or portions of it) to another student.
• You are not allowed to work on your assignment with other students, with friends, with parents, with relatives, etc.
• You are not allowed to post full or partial assignment solutions on discussion boards or websites such as Facebook, etc.

You must work on every assignment on your own without collaboration with other students. If you need help, see a TA or the instructor. Your assignment will be compared with others in the course and if you are believed to be involved in a plagiarism case in any way, the offense will be sent to the office of the Dean. The minimum penalties for plagiarism have become very serious. If this is your first time in any course so far, you automatically receive an F in the course! If it is your second time, you receive a one-year suspension from the program. If it is your third time, you get expulsion from the University.

Penalties for offences can be found on the ODS webpage:
