Course Outline

COMP 4203-A for Winter 2023
Wireless Networks and Security

Course Information
Instructor: Ahmad Traboulsi
Contact: ahmadtraboulsi@cunet.carleton.ca
Classroom: online - Asynchronous
Lectures: Tuesdays & Thursdays (online – Asynchronous delivery)

Teaching Assistants
A list of teaching assistants and their contact/office hours information will be posted once the course starts.

Course Calendar Description
An introduction to wireless networks covering both networking issues and security aspects of modern wireless environments. Fundamentals of mobile LANs, ad hoc, sensor networks, secure routing, searching, clustering, multicasting, localization, mobile IP/TCP, confidentiality, key establishment, authentication, broadcasting, RFIDs, and rogue attacks.
Lectures: 1.25 hours twice a week.

Prerequisites
COMP 3203 or SYSC 4602.

Topics Covered
<table>
<thead>
<tr>
<th>Week</th>
<th>Dates</th>
<th>Topics</th>
</tr>
</thead>
</table>
| 1 & 2 | Jan. 10, 12, 17, 19       | • Wireless Communication Overview  
                              • Basics of wireless transmission  
                              • Antennas and propagation       |
| 3, 4, | Jan. 24, 26               | • Project requirements document and topics  
                              • Signal encoding techniques  
                              • Spread Spectrum  
                              • Multiple access protocols  
                              • Multiple division techniques  
                              • Error Control  
                              • WLANs  
                              • WPANs                                                |
| 5 & 6 | Jan 31, Feb 2, 7, 9, 14, 16 |                                                                         |
|       |                           | Winter Break (February 20 -24)                                          |
| 8     | Feb 28, Mar. 2            | • Project proposal presentation  
                              • Cellular Network                                                      |
| 9     | Mar. 7, 9                 | • Cellular Network  
                              • LTE                                                                   |
| 10    | Mar. 14 & 16              | • Mobile Networking  
                              • Long Range Communication                                               |
| 11 & 12 | Mar. 21, 23, 28, 30       | • Ad hoc Networks  
                              • Sensor Networks  
                              • Wireless Security  
                              • Mobile Network Security                                              |
| 13    | Apr. 4, 6                 | • MANETs Security  
                              • Project Demo                                                           |
|       | Apr. 11                   | • Wireless Sensor Networks Security  
                              • Project Report                                                          |
Textbooks and Other Resources

Michel Barbeau, Wireless Mobile Communications, Networks & Security, Available online.

Upena Dalal, Wireless Communication and Networks Available online.

Cory Beard and William Stallings, Wireless Communication Networks and Systems.

Assessment Scheme

<table>

There will be 9 assignments. Total assignments will be worth 40 of your total mark. For any discrepancies or questions, first contact the TA. Assignments should be submitted as a typed pdf or word file.

Class Schedule

Asynchronous delivery
Office hours: By Appointment only
Undergraduate Academic Advisor

The Undergraduate Advisor for the School of Computer Science is available in Room 5302C HP; by telephone at 520-2600, ext. 4364; or by email at undergraduate_advisor@scs.carleton.ca. The undergraduate advisor can assist with information about prerequisites and preclusions, course substitutions/equivalencies, understanding your academic audit and the remaining requirements for graduation. The undergraduate advisor will also refer students to appropriate resources such as the Science Student Success Centre, Learning Support Services and Writing Tutorial Services.

SCS Computer Laboratory

SCS students can access one of the designated labs for your course. The lab schedule can be found at: https://carleton.ca/scs/tech-support/computer-laboratories/. All SCS computer lab and technical support information can be found at: https://carleton.ca/scs/tech-support/. Technical support is available in room HP5161 Monday to Friday from 9:00 until 17:00 or by emailing support@scs.carleton.ca.
University Policies

For information about Carleton's academic year, including registration and withdrawal dates, see Carleton's Academic Calendar.

Pregnancy Obligation. Please contact your instructor with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details, visit Equity Services.

Religious Obligation. Please contact your instructor with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details, visit Equity Services.

Academic Accommodations for Students with Disabilities If you have a documented disability requiring academic accommodations in this course, please contact the Paul Menton Centre for Students with Disabilities (PMC) at 613-520-6608 or pmc@carleton.ca for a formal evaluation or contact your PMC coordinator to send your instructor your Letter of Accommodation at the beginning of the term. You must also contact the PMC no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable). After requesting accommodation from PMC, meet with your instructor as soon as possible to ensure accommodation arrangements are made. For more details, visit the Paul Menton Centre website.
Survivors of Sexual Violence. As a community, Carleton University is committed to maintaining a positive learning, working and living environment where sexual violence will not be tolerated, and survivors are supported through academic accommodations as per Carleton's Sexual Violence Policy. For more information about the services available at the university and to obtain information about sexual violence and/or support, visit: https://carleton.ca/sexual-violence-support/

Accommodation for Student Activities. Carleton University recognizes the substantial benefits, both to the individual student and for the university, that result from a student participating in activities beyond the classroom experience. Reasonable accommodation must be provided to students who compete or perform at the national or international level. Please contact your instructor with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details, see the policy.

Student Academic Integrity Policy. Every student should be familiar with the Carleton University student academic integrity policy. A student found in violation of academic integrity standards may be awarded penalties which range from a reprimand to receiving a grade of F in the course or even being expelled from the program or University. Examples of punishable offences include: plagiarism and unauthorized co-operation or collaboration. Information on this policy may be found here.
Plagiarism. As defined by Senate, "plagiarism is presenting, whether intentional or not, the ideas, expression of ideas or work of others as one's own". Such reported offences will be reviewed by the office of the Dean of Science.

Unauthorized Co-operation or Collaboration. Senate policy states that "to ensure fairness and equity in assessment of term work, students shall not co-operate or collaborate in the completion of an academic assignment, in whole or in part, when the instructor has indicated that the assignment is to be completed on an individual basis". Please refer to the course outline statement or the instructor concerning this issue.
